## TO WHOMSOEVER IT MAY CONCERN

We have purchased and installed Sharpless make Brine Filters, 66.3 M2 area for our Caustic Soda Plant last year and it is working satisfactorily.

We are happy with its performance. We also have installed DRM filter in our plant and we find that performance of both the filters are same. Moreover, investment cost of Sharpless Filter is low and their spare parts are very economical and available in short time.

We will recommend to consider Sharpless Brine Filter always.

Yours sincerely,

For TGV SRAAC LIMITED
